Quarterly Voice of the Retired Detroit Police and Fire Fighters

Volume 144, Winter, 2021

## IMPORTANT NOTICE!

Because uncertainty remains regarding public meetings, the Association will continue to monitor the situation. We will keep the membership updated on the Association's ability/appropriateness regarding the scheduling of the next General Membership Meeting.

### PRESIDENT

*Don Taylor*

I wish everyone a safe and healthy New Year.

With the start of a new year, we still have no clear picture when we will be able to return to some semblance of a normal life style. As an Association that consists of mostly seniors, which are classified as being high risk for the coronavirus, the Association must consider the risk to our membership before we return to normal General Membership Meetings. Currently the next General meeting is scheduled for March 4, 2021. Hopefully by March everyone in the high risk group will have been given the option of receiving the vaccine. As we return to having General Meetings I am sure that some may be hesitant to attend large gatherings. The attendance of the first few meetings will be hard to judge and how the numbers may relate to future meetings, once this virus is fully out of the picture.

The Michigan Legislators are starting a new term in 2021 and as always we will be monitoring newly introduced legislation to ensure that our benefits are not affected in a negative way. As for the last legisla-

tive session with a government split between political parties, neither side has been able to push through any real controversial pieces of legislation. In several cases this may have been a benefit for us. There were several Bills that would have restricted rights to carry concealed weapons, and a few Bills that would have required us to pay more in pension tax. We monitored all of these Bills when they were introduced, and none of them appeared to have enough support to gain passage. In 2020 Governor Whitmer signed 249 Bills into law, compared to 690 that Governor Snyder signed into law, his last year in office 2018.

The Federal Government, like Michigan, has a divided government. Not much happened as it relates to passage of legislation at the Federal level either. There was some legislation that we supported and would have had a positive effect on our membership. As has been the case for over 20 years, once again legislation was introduced to eliminate the Pension windfall provisions, and once again it failed to get any movement. Another piece of Federal legislation that did have bipartisan support was a Bill to lower the eligibility age for Medicare for Public Safety Officers. Hopefully this legislation will be re-introduced in the new congress. With Police & Fire retirees losing their healthcare through the Detroit bankruptcy, this would be very helpful for those that are forced to retire prior to becoming eligible for Medicare under the current age requirements.

We look forward to summer weather and the events of the Association; hopefully you all are also looking

## VICE PRESIDENT

*Gregory Trozak*

“2021” is finally here, we can only hope that the New Year will get everyone back to some normalcy in their daily lives. I hope this finds you doing well and you had the opportunity to enjoy the Holidays with family and friends any way possible whether in person, virtually or however it worked out for you. There is really not much to report on as far as Association events, with the lockdown of the state and the uncertainty of the future everything is on hold as of today. The Association has every intention once our venues are allowed to reopen and have us as guests to getting back to normal with all the events. This includes the monthly general meetings, the annual picnic in Frankenmuth and the golf outing. As soon as we are given the okay the information will be distributed ASAP, sorry we cannot give any specific dates at this time but stay tuned.

Moving on to the Pension System, there are a few things to update. As you may or may not know the system changed payroll systems effective January 1st of this year. Everyone will be sent instructions on how to set up your account with the new company soon. As of today, those instructions are in the mail. We all know how the mail system has been operating lately, so give them some time. Everyone will receive two (2) mailings, one will be on how to set up your account with the website and the other will have your unique member number needed to set up the account. Once you set up your account you will be able to update your personal information which includes any address change, tax withholding and direct deposit changes.

As you already know, many of us received dual pension statements for the January check and this includes the 412 Retired Police & Fire members who still receive a paper check. They received dual checks, although only one was not worth the paper it was written on as they say. The reason for the dual mailings was the payroll company ran a test run to make sure everything worked and apparently it did. Those that did receive two checks were notified by overnight mail which check was the correct one. I know that I always attempt to have everyone sign up for direct deposit and this is just another reason to do so. I would like to remind those that do receive a paper check that once this covid situation is behind us the pension system is still planning on moving on to issuing debit cards in lieu of paper checks. If you are okay with this method of receiving your pension, this is the future. The pension system is also planning on eliminating the monthly mailing of the pay stub mailing for cost cutting purposes, so another reason for setting up your account on the new web site.

On a side note the company, ADP, did acknowledge the error and paid for the overnight mailing to those that

## SECRETARY/ TREASURER

*Al Grant*

As we begin a new year, I would like to run through the RDPFFA previous year activities, income and expenses from January 1, 2020 to December 31, 2020.

A direct quote from the Restated Bylaws of the Retired Detroit Police and Fire Fighters Association states, in part, "The purposes of the Association shall be: To provide the Members with information concerning the status of Pensions, Hospitalization and Insurances." The organization achieves pension issue goals by supporting two elected pension representatives, one fire and one police, who in return report to the membership on all relevant activities. Hospitalization Benefits, are regularly monitored by elected Trustees, two are RDPFFA Board of Director members who report to the participants all applicable information.

In addition, the Retired Detroit Police and Fire Fighters Association objective is to promote a spirit of good fellowship and a closer personal relationship among members and their families. Attempting to accomplish this goal the Association arranges an annual picnic and coordinates a golf outing. The Association is organized and shall be operated exclusively for the purposes set forth in Section 501(c) (4) of the Internal Revenue Code.

This is a summary of year end numbers compiled by the Retired Detroit Police Fire Fighters Association Secretary-Treasurer. 5,205 persons were participants in the Association at the end of 2020, of those included, 4,413 started the year and the Association ended the year with 4,245 on payroll deduction. Other members are those not enrolled who pay annually along with per-

sons not eligible for automatic payroll deduction. The following list represents categories identifying annual expenses; Events \$2,850 (6 donations), General Meetings \$4,697, Honorariums \$32,755, Insurance \$1,106 (Average yearly cost - 3 year policies), Office Expenses \$53,911, Payroll Expenses \$121,651, Professional Fees \$3,552, Professional Services \$9,754, Property Taxes \$7,969, Unity Magazine \$15,236 and Utilities \$9,435. Investment expenses are not included.

The yearly Retired Detroit Police and Fire Fighters Association expenses as of December 31, 2020 were \$254,420. The Association had a total income of \$217,316; this number includes \$190,653 in dues, \$17,949 in appreciation, \$7,650 advertising income from the Unity and \$1,064 in other income contributions. Also, \$60,000 of investment earnings was transferred to the Association's fund to deal with expenditures. The dues assessment of \$36.00 annually does not cover the Association's annual expenses which then, are supplemented by transferring investment funds.

December 31, 2019 end of the year total expenses was \$261,151, revisiting, operating cost as of December 31, 2018 were \$301,331 compared to \$316,356 for December 31, 2017, contrasted to December 31, 2016 figure of \$335,039.

Left out from the above values of total assets is the office located at 2525 E. 14 Mile Road Sterling Heights, Michigan 48310-5969 which is owned by the organization. The above numbers are calculations for members' informational purposes only and are not to be construed as a professional audit and official certified numbers.

received the dual checks and additional cost of the mailings of dual direct deposit stubs. When you do receive the letter with the instructions to set up your account do so carefully and it should be an easy process.

Another reminder for all you Veterans out there please consider joining the VFW or The American Legion, both have Police & Fire posts and the contact information is listed in this issue of the UNITY. Your support would be greatly appreciated, so even if you know any first responders who are Veterans let them know. All of these organizations along with this organization are in desperate need for some "Young Blood". Plus the young ones could learn a lot and hear some great stories.

In keeping this article short and sweet (maybe not that sweet) I ask that you keep in your thoughts and especially your prayers all those that we lost in 2020. As always be careful out there take care of your family, it is a whole different world we live in now.

## "A Day I Will Never Forget!"

Remembering Officer Danny Ellis - 50 years ago!

On February 3, 1971, Officer Daniel G. Ellis, 29, a six-year veteran of the Detroit Police Force was shot while trying to subdue a gunman at Mother Waddles Perpetual Mission. He was dead on arrival at Detroit General Hospital after 2:20 p.m. of multiple gunshot wounds in the chest and right leg. This is a part of the story as shared by Tom Beski, his partner at the time.

Danny and Tom were scheduled to go out in scout car 7-13 at the 7th precinct that day. Just before leaving, the sergeant informed them that one of them would have to go to a probable cause hearing for an arrest they made several days before. Since Danny was the senior officer, he decided Tom should go to court. Danny Parrish, who was the report clerk that day, was assigned to fill in for Tom instead. After court, Tom returned and was ready to go back on the car but the sergeant asked him to go pick up a car from the Livernois garage that had been repaired. Because of a shortage of scout cars, the sergeant wanted Tom to get it immediately. As a result, Danny Ellis and Danny Parrish would finish out the day in car 7-13.

After leaving the garage, Tom heard that scout 7-13 had a run to 3700 Gratiot because of a man with a gun. Tom headed toward the Gratiot address to back them up. By the time he arrived, scout car 7-4 was bringing Danny Ellis out of the building, hurrying to transport him to the hospital. During the altercation, Danny Ellis pushed Danny Parrish aside and he was fatally wounded, with a bullet hitting his police badge 890 as pictured. Fate stepped in twice that day to take Tom off that car and Tom wanted all to know that he feels Danny Ellis deserves special recognition for his heroism on February 3, 1971, a day he will never forget!

# How Much Can You Take From Your IRA and Preserve the Principal?

*Matthew Teetor and Leon LaBrecque*  
Sequoia Financial Group

With volatile markets putting retirees on edge, a question we frequently address is, “How much can I take from my IRA?” We like to add an additional ingredient “and still preserve the principal.” IRAs are great planning tools for retired police officers and firefighters: they allow the retiree to have a tax-deferred way to preserve their deferred comp (§457) or annuity withdrawals. There are two normal ways of funding an IRA, either through contributions or by rolling over a distribution from another plan, like deferred comp.

The first question in trying to figure how much you can take out is figuring out how much you must take out of your IRA. Traditional IRAs (including rollovers) have a Required Minimum Distribution (RMD) that is mandated by law. You must begin taking money out of your IRA by April 1 after you reach age 72 or face a 50% penalty on the required distribution (this has been changed by the new law, SECURE). The required distributions are determined by a published IRS Table: you divide your beginning of the year balance by the factor on the table, which is based on a joint life expectancy. As you get older, of course, your life expectancy gets shorter, and the amount you take out increases. In general, the RMD at age 72 is about 4% and gets progressively larger.

The second big question is trying to take inflation into account in your withdrawals. Say you have a \$200,000 IRA at the Credit Union, all in CDs. Let’s suppose those CDs make 2% (good luck on that one in today’s market!). You take \$4,000, or the interest out every year. So it appears that you are easily preserving the principal. However, every year, because of inflation, your purchasing power is declining. The \$4,000 you take out in the first year won’t buy as much as the \$4,000 in the fifth year. You might also notice that if you’re making 2% and you are over 72, you have to take out 4% or more, and you will erode the principal.

So, you must start distributions at 72, but how much can you take, preserve your purchasing power, and preserve the principal? We’ve done substantial research on this issue, and there is one essential factor to preservation: Real Rate of Return. Real Rate of Return is your rate of return adjusted for inflation. In an oversimplified calculation, Real Rate of Return is your return less the rate of inflation. So, if your IRA is earning 7% and inflation is 3%, your real rate of return is 4%. If your IRA is all in bank deposits earning 2%, and inflation is 3%, then your real rate of return is -1%. Here’s the basic rule: If you want to preserve purchasing power and capital, you should only withdraw at or less than your real rate of return.

Here are three scenarios of how the Real Rate of Return works. Let’s take three examples: Let’s look at a retiree who is age 64. He has \$300,000 in his IRA. He wants to take out a \$1,000 monthly distribution, have some fun, and stay out of trouble on the Required Minimum Distributions when he hits 72. He wants to increase the distribution by 3% a year. He’s considering three investment options: CDs at the Credit Union (paying 2%), an annuity paying 4%, or a balanced investment portfolio that should make about 7%. For this example, assume inflation is 3%.

*(continued on page 13)*

---

## IRA *(Continued from Page 12)*

**First Scenario: 2% CDs.** It should come as no surprise to anyone that if you make 2% and take 4% out (that's how much \$12,000 a year is off the \$300,000), you'll run out of money. What may come as a surprise is that because of the compounding effect of inflation and interest, the 2% investment is doomed to fail quickly. Our retiree will totally run out of money, especially since they will have to take progressively more after age 72. The Real Rate of Return is -1% ( $2\% - 3\% = -1\%$ ), which is 5% less than the withdrawal rate (4%), so this one will fail (unless our retiree starts smoking, drinking and riding his Harley without a helmet).

**Second Scenario: 4% Annuity.** Under this scenario, the rate of return (4%) equals the withdrawal rate, so the IRA doesn't blow up as quickly. However, the simplified Real Rate of Return ( $4\% - 3\% = 1\%$ ) does not exceed the withdrawal (4%), so this one also will fail in spending power, but over a longer period of time. In addition, at age 72, our retiree now has to take Required Minimum Distribution (RMD), which gets progressively bigger as the retiree ages.

**Third Scenario: 7% Investment.** This scenario uses a balanced portfolio that earns on average 7%. Here the Real Rate of Return is about 4% ( $7\% - 3\% = 4\%$ ). 4% is greater than the withdrawal. This plan will work. By the later ages, when the CD IRA would be gone, the 7% IRA will have a positive balance. In addition, the distributions at older ages will get bigger because the IRA is making more than the withdrawal rate.

The key to a sustainable withdrawal is enhancing Real Rate of Return. To preserve purchasing power, you have to make a real rate of return greater than your withdrawal rate. You need to take into account the fact that you must take distributions at age 72. Over history, many studies (including ours) have shown that the key to having a sustainable withdrawal is not being too conservative or too aggressive. As a matter of fact, the most conservative portfolios (e.g., 100% bonds) had consistently the highest failure ratios. Similarly, being too aggressive (e.g., all equities) also causes prospective failure when the market does a big drop. In historical studies, the portfolio that provided the highest success and highest consistent real rate of return in current times is about 70% equities and 30% bonds. Of course, the success of this model is predicated on the idea that you're not paying a bunch of fees and loads to get your investments, and that you stay invested and keep the mix stable at that 70/30 blend. We frequently modify that blend to 60% equities and 40% bonds, or 50% equities and 50% bonds, which maintains a good real rate of return and lets our retirees sleep well at night.

**Bottom Line:** Invest your IRA like a pension plan. Pensions are designed to provide a sustainable withdrawal for the retirees. It should be no surprise that the average large municipal pension plan has an asset mix of 70% equities and 30% bonds.

## Silver Ladies

Carol Curley

New Year Greetings with light!

This past year, we, Silver Ladies have had very few lunch meetings together. We talk by phone, make plans and then have to cancel them. It is fun to talk by phone but it's not the same as person to person over a table of good food! It's strange outside anyway; too much information, dictates, details, and confusion and also we are surrounded by stage coach robbers everywhere we go.

So, looking forward, here's hoping your Christmas and New Year is blessed with good health, family, friends and the right decisions when it comes to our American life and freedoms!

For any questions call (810) 392-2668 for all the answers. Leave a message and I will call you back.
